

Transform your event into another world.

A transformable immersive event venue in Al Quoz, Dubai — where the walls, the floor, the light and the sound all become part of your event.

events@activegames.ae · Warehouse No.6, Al Quoz, Dubai

— ABOUT WH6

Not a ballroom with a screen in it.

WH6 — Warehouse 6 — is a transformable immersive event venue built inside the Active Games venue in Al Quoz. Its walls and floor are projection surfaces and its sound and lighting are part of the same system, so the whole room becomes the setting for your event — and can change during it.

The summit you host by day becomes a product reveal, a runway or a gala by night. You bring the occasion; we transform the space around it.

The room, by the numbers.

1,215 m²

One rectangular immersive arena

360°

Projection coverage, floor and walls

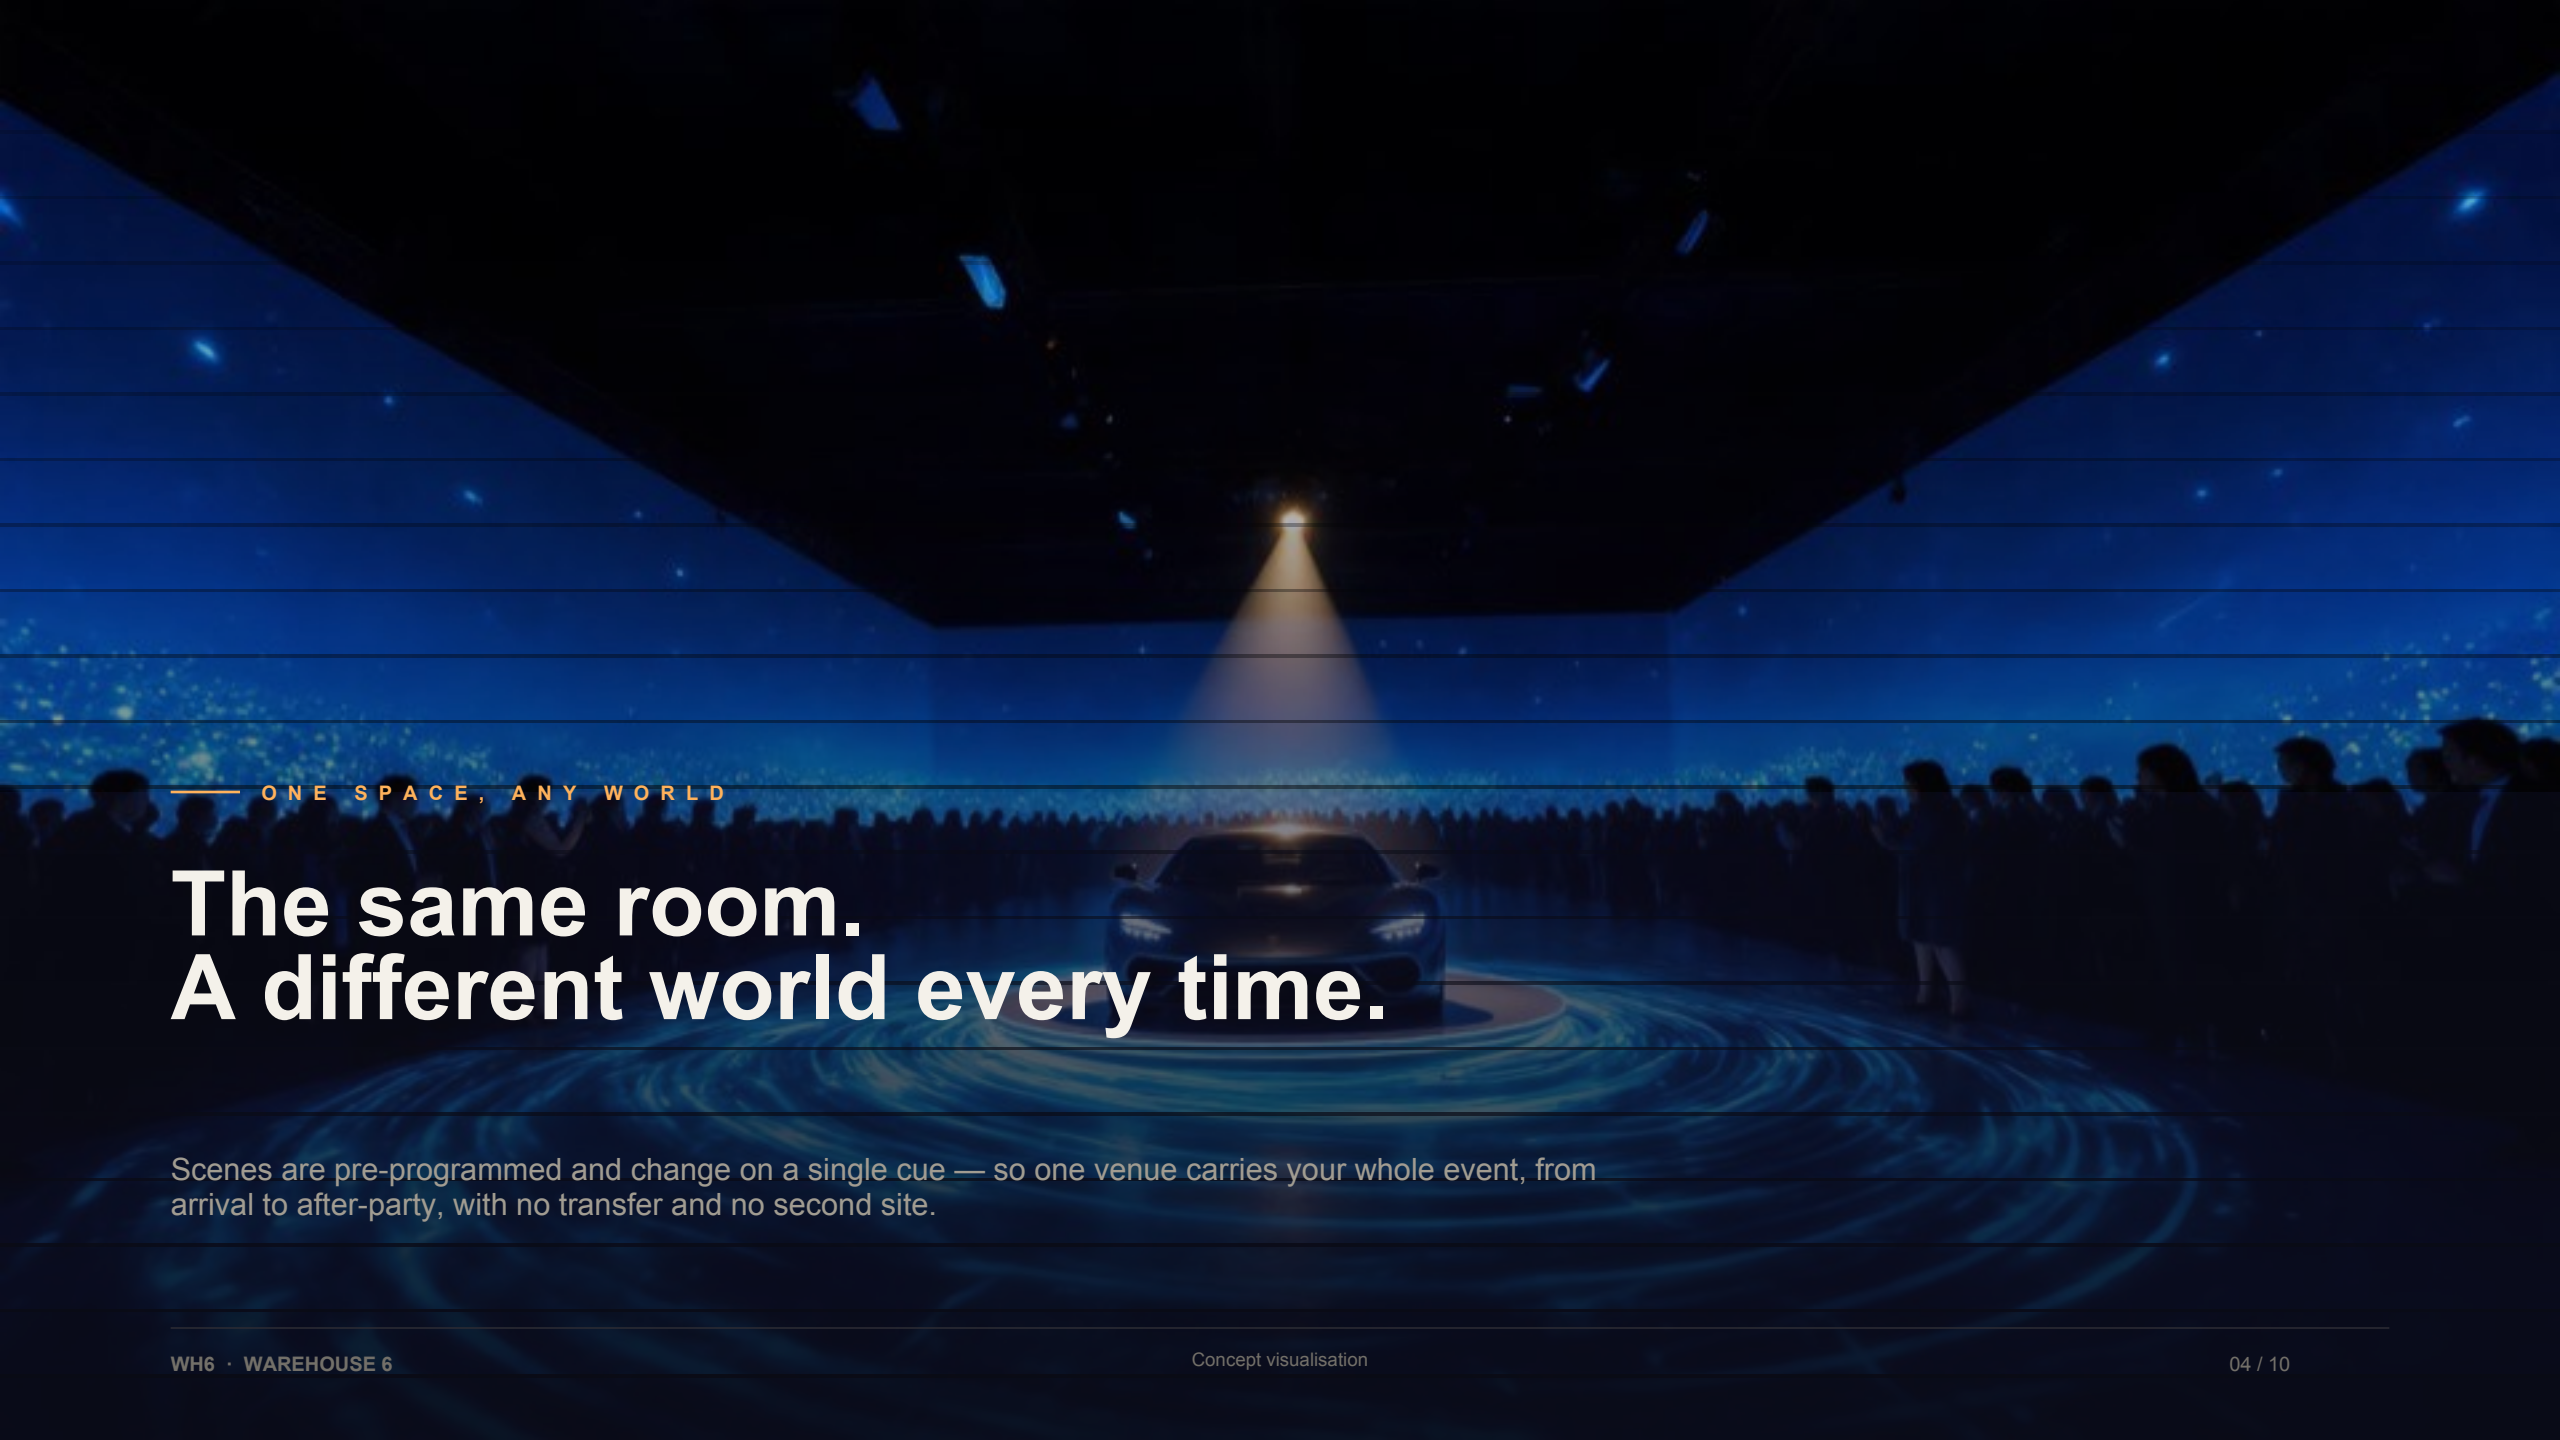

22

Frame-locked laser projectors

800

Guests at full capacity

Vehicle access into the hall means cars can be driven in and revealed. Everything is permanently installed and permanently tuned — not hired in per event.

— ONE SPACE, ANY WORLD

The same room. A different world every time.

Scenes are pre-programmed and change on a single cue — so one venue carries your whole event, from arrival to after-party, with no transfer and no second site.

One hall, every format.

Standing reception or theatre

Up to 800 guests

Seated gala dinner

Up to 600 guests

Workshop or cabaret format

Up to 450 guests

Layouts are planned with you — staging, screens, dining and dance floor share the 1,215 m² floor.

Built for the events ballrooms can't hold.

Corporate events

Town halls, conferences, kick-offs and gala dinners that change with the agenda.

Award ceremonies

Every shortlist and winner takes over every surface; dinner, show and after-party in one space.

Brand activations

The whole venue becomes your brand for a day or a season — built to be filmed.

Product launches

Tease, transform and reveal — the room builds the story around the product.

Fashion shows

A 45-metre runway with a set made of light that changes with each look.

Private celebrations

Milestone birthdays and private nights, themed into an immersive world of your choosing.

— THE TECHNOLOGY

One system, not a stack of hires.

Projection	22 laser projectors — 12 Panasonic PT-MZ17K on the floor, 10 PT-MZ14K on the walls, edge-blended into one 360° picture.
-------------------	---

Playback	A 7thSense media server drives every projector in frame-locked, pixel-accurate sync.
-----------------	--

Screens	Acoustic-transparent 360° surfaces let sound pass straight through the image.
----------------	---

Audio	Eight LD Systems Stinger 15 G3 full-range cabinets with two dedicated subwoofers.
--------------	---

Lighting	Show lighting layered over the projection, synced to your cues and palette.
-----------------	---

Show control	Visuals, audio and lighting on one cue stack — 'change the room' is a single button.
---------------------	--

— OPTIONAL ADD-ONS

Add play to the programme.

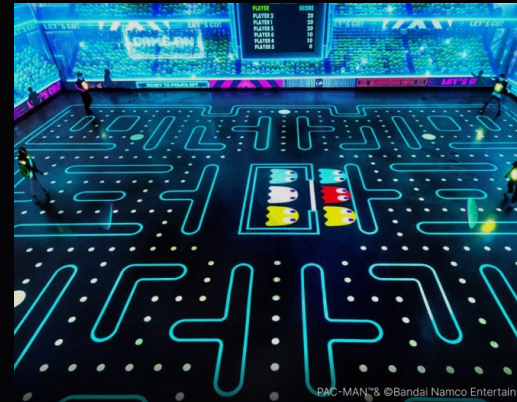

Chaos Karts

Real karts on a projection-mapped track.

Hyper Tag

A fast, immersive team combat arena.

Pac-Man Live

The arcade legend at human scale.

Titanic VR

A cinematic virtual-reality journey.

WH6 operates from the Active Games venue, so these experiences — and full catering and bar service — can be added to your event. Add-on images are real; scene visuals elsewhere are concept visualisations.

— TRACK RECORD

Teams from these organisations have hosted launches, tournaments and team events in this arena.

— LET'S BEGIN

Let's plan your event.

Book an immersive venue tour and stand inside the space while it transforms around you — or tell us about your event and we'll respond with a tailored proposal within one business day.
